Subject: Health issues and workload

Hi Michael,

Ex. 6 - Personal Privacy

In addition it was not an exaggeration when the HQ folks said that the Bristol Bay work would require at least one full time position in our program. I have been finding it difficult to keep all the Bristol Bay balls in the air, much less anything else.

Non-Responsive

Non-Responsive This situation will not improve as the draft BB characterization reports start coming in this week **Ex. 6 - Personal Privacy**

Ex. 6 - Personal Privacy Also, Sheila will be out of the office for a month starting latter this month. I will need to make sure certain parts are moving along.

Another topic - We discussed asking Matt to help evaluate the Corps permits that have been issued in Bristol Bay. I don't think that has happened.

The bottom line is that we need to discuss whether to approach the rest of the ARU staff to pick up things that are slipping through the cracks.

What do you think? Should we talk?

Phil
